

Homeowners,

Assessments are **due January 1<sup>st</sup> and late if received after January 31<sup>st</sup>**. Please disregard the due date of December 27<sup>th</sup> it is not correct. You will not be charged a late fee after December 31<sup>st</sup>.

My apologizes, if this caused you any inconvenience. This is the first assessment mailing with Caliber. All new processes have a learning curve. The statement does not have the correct dates.

Assessment dates have not changed and will be the same as they have been in the past.
